George's are tackling Medical Hair Loss... Head On!

George's have seen at first hand the devastation felt by clients facing the prospect of medical hair loss as a result of cancer treatment and conditions such as alopecia.

The company's team of senior stylist's specially trained by programmes such as Trevor Sorbie's 'My New Hair' and 'Hair In Recovery', have therefore been working to help patients rekindle their self esteem through a comprehensive service of support, consultation, wig fitting, styling and aftercare.
